

ALPG, ALUMINIUM PARALLEL GROOVE CONNECTOR

Application:

Used for connection of aluminium conductors in medium voltage.

Material:

Body: aluminium alloy

Bolt: hot-dip galvanized steel or stainless steel

Feature:

- Advanced forging technology enhances mechanical strength of connector.
- Special designed screw hole and arc shape of the body allow connector to hold different cable sizes on each side.
- Indented groove enhances tensile strength and electrical conductivity.
- Pad under bolts ensures uniform pressure to connector.

Type	Conductor Size of both sides (mm ²)	Bolts	Pack(pcs)
ALPG16-70/1	16-70	1	20x12
ALPG16-70/2	16-70	2	20x10
ALPG16-150/2	16-150	2	20x12
ALPG35-300/3	35-300	3	16x3
