

## CUPG, COPPER PARALLEL GROOVE CONNECTOR

### Application:

Used for T-connections and joint-connections between copper conductors in medium voltage.

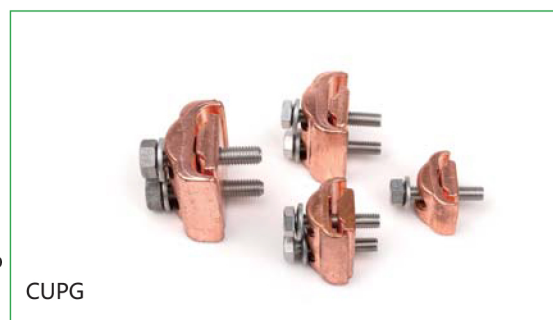

### Material:

Body: Cu $\geq$ 99.9%

Bolt: hot-dip galvanized steel or stainless steel

### Feature:

- Special designed screw hole and arc shape of the body allow connector to hold different cable sizes on each side.
- Indented groove enhances tensile strength and electrical conductivity.

Type	Conductor Size of both sides (mm <sup>2</sup> )	Bolts	Pack(pcs)
CUPG10-70/1	10-70	1	60x2
CUPG6-70/2	6-70	2	35x2
CUPG10-95/2	10-95	2	25x2
CUPG16-150/2	16-150	2	15x2
