

JBL-A, ALUMINIUM PARALLEL GROOVE CONNECTOR

Application:

Used for connection of aluminium conductors in medium voltage.

Material:

Body: aluminium alloy

Bolt: hot-dip galvanized steel or stainless steel

Feature:

- Special designed screw hole and arc shape of the body allow connector to hold different cable sizes on each side.
- Pad under bolts ensures uniform pressure to connector.

JBL-A

Type	Conductor Size of both sides (mm ²)	Bolts	Pack(pcs)
JBL-A16-120/2	16-120	2	30x4
JBL-A16-120/3	16-120	3	20x4
JBL-A35-240/2	35-240	2	12x4
JBL-A35-240/3	35-240	3	6x4
